

# AIR TOUCH P1

## PLATINUM SERIES

## AIR TOUCH ADVANTAGE

- Real time PM2.5 level indicator
- CADR of up to 450 m³/h¹
- Coverage area of up to 698 square feet²
- Advanced filtration system with 5 air purification cycle per hour
- Pre-Filter & High grade H13 HEPA filter
- Activated Carbon filter
- Silent operation with noise level of 54db/A at high speed
- 2 Air purifying speeds with Auto mode
- Sleep mode with 1,2,4 or 8 hour automatic shut-off timer
- Child Lock button
- Filter Reset Indicator
- Filter life of up to 3000 hours or 1 Year¹
- 1 Year on-site Warranty
- Power consumption: 82W
- Power Voltage : 220-240V/50~60Hz
- 3D Airflow³

1. For the air that passes through the filter, Purification performance parameters are tested under specific third-party laboratory conditions with specific dust particles and formaldehyde gas as target pollutants. Overall particle reduction depends on many factors including the amount of air processed, the pollutant type and the pollutant introduction rate into the environment.

2. Air Purifier Ratings. (n.d.). Air Purifier CADR Ratings Scale | Convert Sq Ft Room to CADR. [online] Available at: <https://air-purifier-ratings.org/learn/cadr-ratings-scale/>.

3. 3D circulation airflow is divided into two modes, including Front Airflow and Upwards Airflow. Usually, various types of dirt appears at different positions between the ceiling and the floor in the room, and they can be purified by different modes of 3D airflow respectively. Front Airflow mode cleans up house dust spreading within 30cm above the floor, while Upwards airflow removes odor floating in the air.

# TECHNICAL DETAILS

| PRODUCT NAME: AIR TOUCH P1                             |                                                        |
|--------------------------------------------------------|--------------------------------------------------------|
| Rated Voltage                                          | 220-240V                                               |
| Rated Frequency                                        | 50/60Hz                                                |
| Rated Power                                            | 82W                                                    |
| Noise (High Speed)                                     | 54dB/A                                                 |
| Noise (Low Speed)                                      | 30dB/A                                                 |
| Amount of Particulate Cleaned Air (CADR) <sup>1</sup>  | 450m³/h                                                |
| Amount of Formaldehyde Cleaned Air (CADR) <sup>1</sup> | 65.8m³/h                                               |
| Applicable Area <sup>2</sup>                           | 698 square feet                                        |
| Suggested Period to Replace Filters                    | 3 in 1 Compound filter life up to 3000 hours or 1 year |
| Net Weight                                             | 5.8kg                                                  |
| Product Measurements                                   | L350xW211xH525mm                                       |
| Components                                             | 3 in 1 Compound filter                                 |
